

I have been listiening to XM radio for several years. I enjoy the variety of news and music I can choose from. I pay for these sevices and think it is well worth the money I pay each month. I also use the use the satellite instant weather and traffic channel that is included in the package that I pay for each month. I pay for these services because they are valuable to me and they are not avaiable locally. I urge the FCC to reject the NAB'S petition 04-160.
